# CURRENT PRODUCTS model:CSP120

## CABLE CHECKER

It can check XLR, bantam, phone
Easy operation that it only places cable in
It judges OK, NG at first sight

*CSP120 is cable checker that the good or bad of the cable is easily checked just to place cable.*
*Connecter supports for XLR3 pin type, bantam, 2P, 3P 1/4" phone.*

**"Easy operation"**
It is extremely easy to check cable in CSP120 and places cable which it wants to check and is OK if 2 green LED turns it on. Red LED turns on when 1-2 or 3-4 is connected reversely. Additionally, none turns on when any one is not connected.

**"Others"**
There is model of the second hot and the third hot in CSP120, and, please specify it at the time of order. Additionally, built-in 9V battery is easily exchangeable with 1 screw.
The second hot model = CSP120-2
The third hot model = CSP120-3
