

CURRENT PRODUCTS model:FU301 MONITOR FADER

3 input stereo fader
100mm stroke

RCA jack

It is most suitable for monitors

Passive

Compact

FU301 is 3 input fader units of the passive. A level controls the source which it chose in fader and outputs it. The signal transfer which is faithful to original sound by this system is possible. It is the fader unit which is most suitable for a purpose it connects a CD and DAT to direct power amp, and to monitor.

"Input"

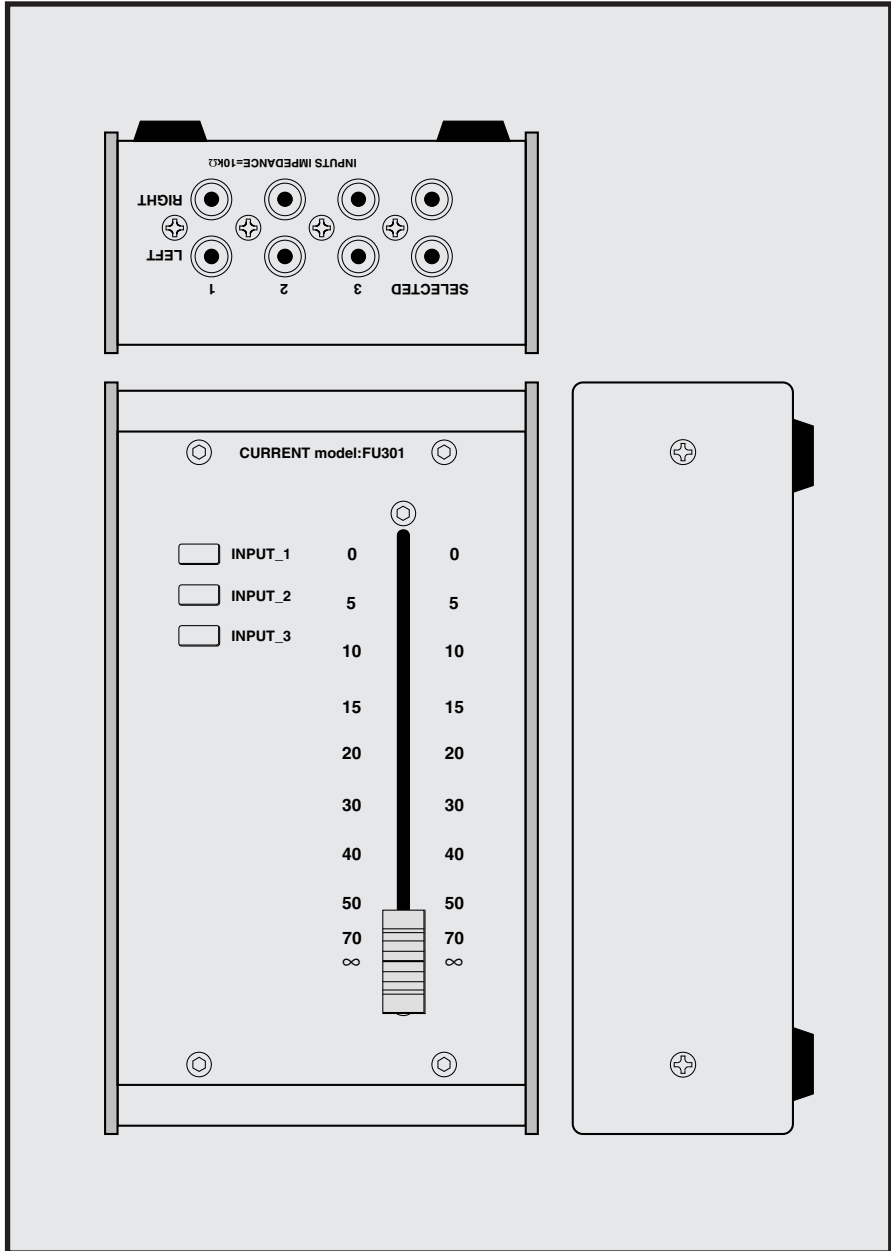

FU301 chooses the RCA jack source of 3 stereos and can monitor it and can apply it to comparison audition of the source.

"Control"

It adopts the conductive plastic fader of the 100mm stroke that the operability is good for fader of FU301, and it is possible for smooth level control.

"Others"

When load impedance is low, please be careful about fader scales because an error occurs. In addition, high frequency rolls off when it uses a cable of long large capacity. Please refer about the manufacturing of the fader unit of specifications of the others.

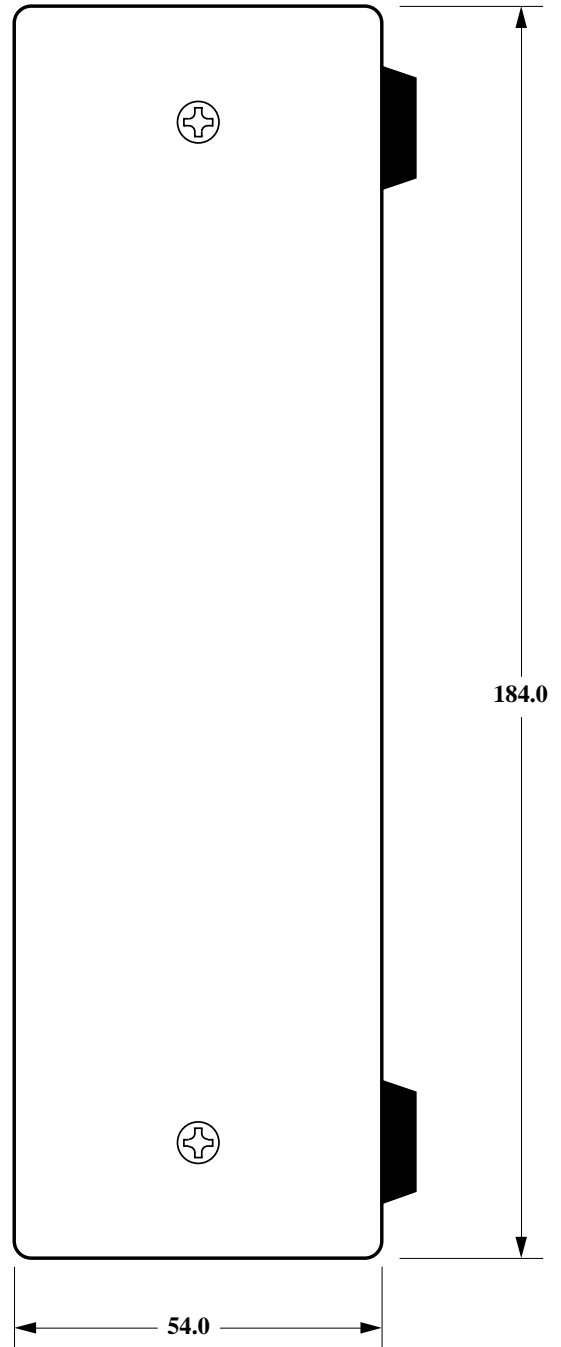

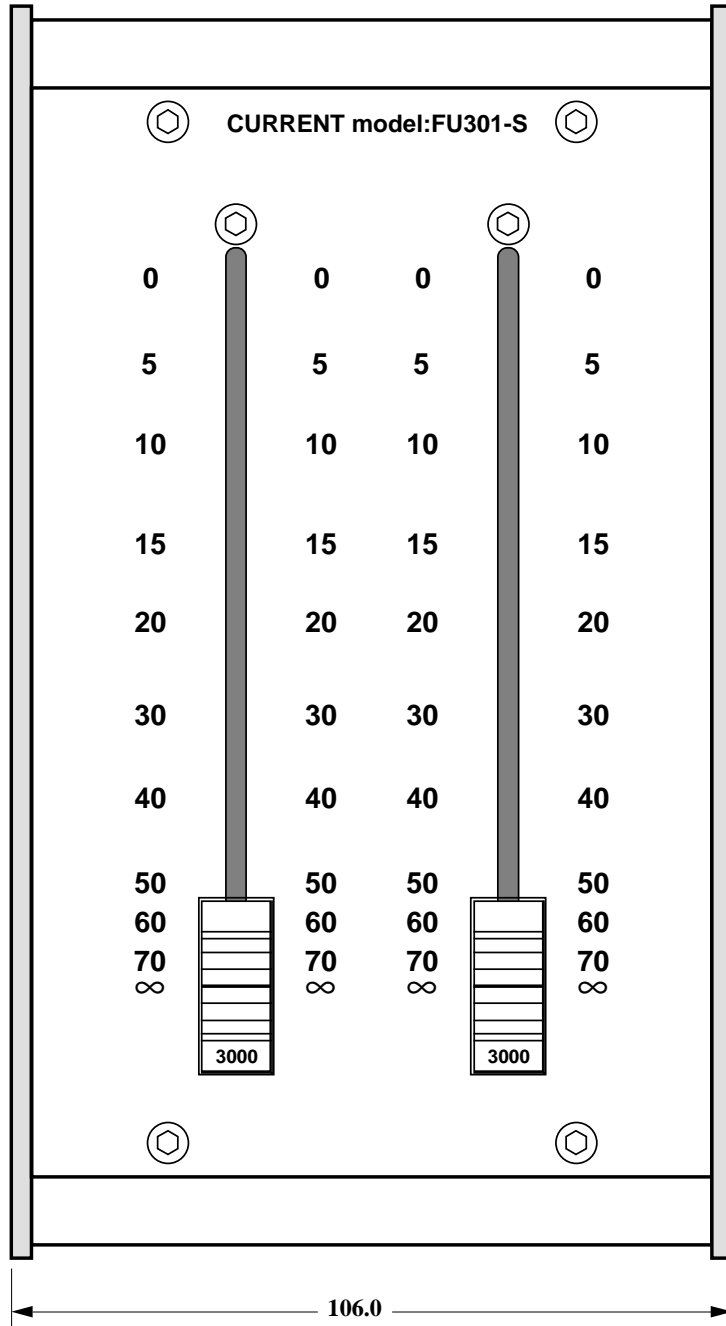

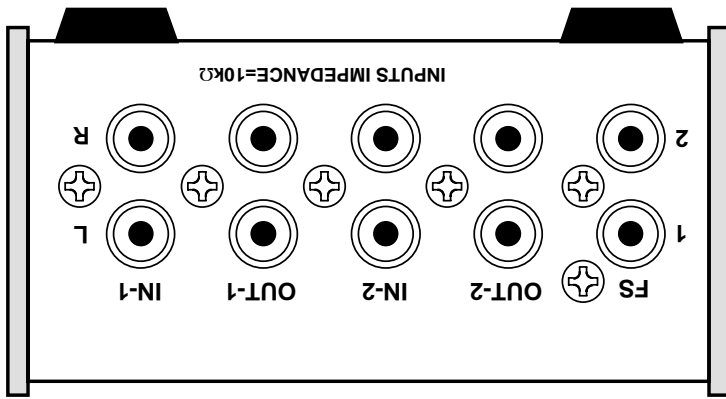

SPECIFICATIONS

- 🍏 INPUT: STEREO x3
- 🍏 INPUT IMPEDANCE: 10kΩ
- 🍏 INPUT CONNECTOR: RCA, UNBALANCED
- 🍏 INSERTION LOSS: < 0.5dB at source impedance 50Ω
- 🍏 FADER UNIT: 100mm STROKE CONDUCTIVE PLASTIC FADER
- 🍏 DIMENSIONS: 106Wx58Hx184D, 1kg

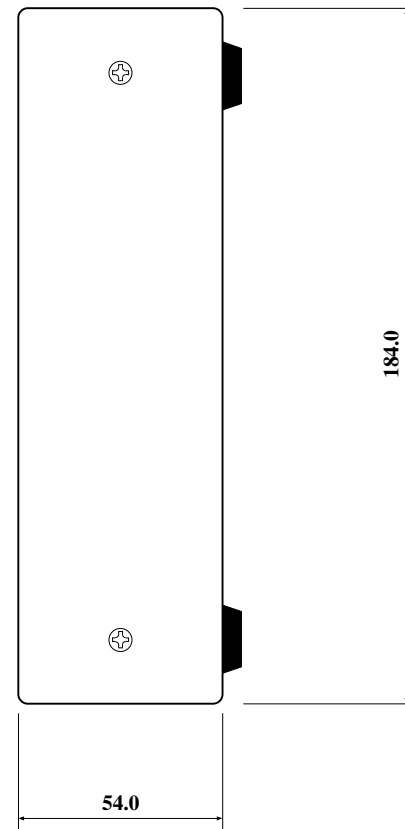

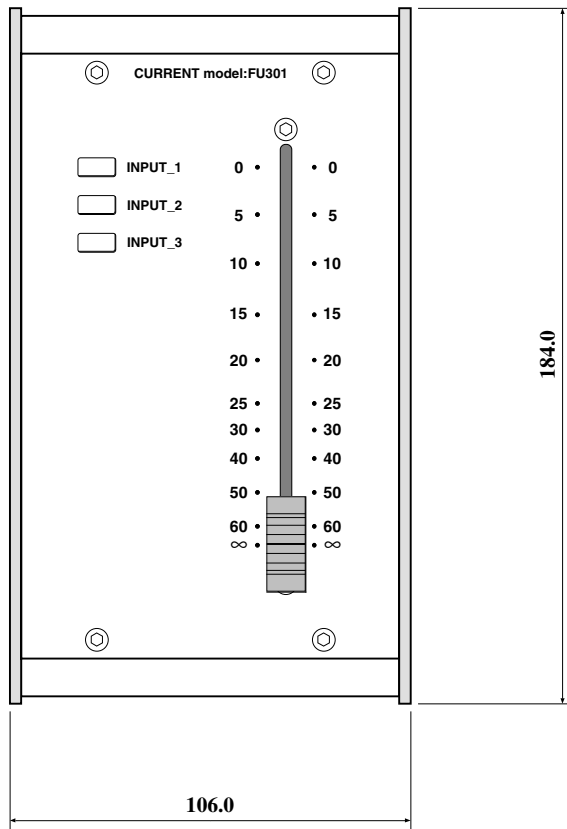

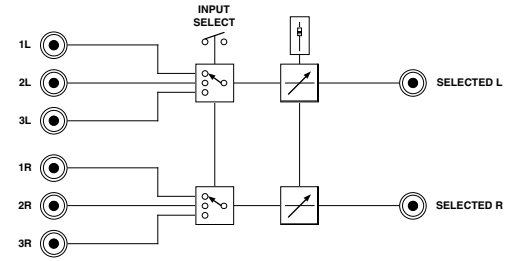

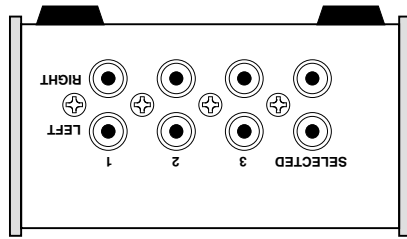

Monitor fader	FU301	¥120,000
accessory : AC cable
