

CURRENT PRODUCTS model:ND213-36D

T5.5 LED LAMP for EAO-01 SERIES

Low power

There is no inrush current

Maintenance-free

Excellent impact resistance

There are red, yellow, green, an orange

It is compatible by an EAO-01 series switch

It is most suitable for a console, Control Panel

Protection diode built-in

The ND213-36D is an LED lamp of 36V specifications to be completely compatible with an EAO-01 series switch, and there is little power dissipation with the about 3/4 (approximately 15mA) of the incandescent lamp, and the reduction of approximately 25% is possible than a lamp. In addition, it reduces main tenace work of the equipment because life is long.

"Bulb equivalent brightness"

It makes 6 LED tips bonding and gets an incandescent lamp and approximately equivalent brightness. When it compares it that it puts a rubber screen for color filter on the lamp and used it, there is the color that there is more ND213-36D in the light quantity.

"SSL console adaptation "

It is compatible with an EAO-01 series switch used for 4000 series. There are an orange for CUT switches, yellow for SOLO/GROUP switches, green for READY TAPE and red for RECORD switches. In addition, it can largely reduce load of the power supply because there is little power dissipation, and there is not inrush current. Moreover, it contributes to extension of life of the equipment because there is less fever than a bulb.

"Others"

This component is only available for sale discontinued.

Additionally, please refer about the bulb of 36V 20mA.

SPECIFICATIONS

- 🔌 **SUPPLY VOLTAGE:** 35VDC, with Resistor and protection diode
- 🔌 **POWER CONSUMPTION:** 15mA (Implemented SSL console, 12mA)
- 🔌 **STYLE:** T5.5, L=30mm, ø5mm
- 🔌 **LIFE:** Approximately 50,000 hours

Color	Use	Model	Price
Red	RECORD	ND213SR-36D	¥425
White	SOLO/GROUP	ND213Y-36D	¥425
Green	READY TAPE	ND213PG-36D	¥425
Orange	CUT	ND213SQ-36D	¥425
